PANDO 3.0 TEARDROP CAMPER

Our off-road camping teardrop camping trailer combines an exceptional design and durable structure. Built on a sturdy 4-inch c-channel frame, the trailer boasts an aluminum sheeting body with an R10 insulated foam core. Its classic teardrop shape is complemented by a spacious rear galley kitchen.

Designed for off-road adventures, this trailer measures 166" in length from bumper to hitch, and 89" in width from fender to fender. With a dry weight of 2200 lbs, it strikes the perfect balance between size and maneuverability. Plus, it offers an impressive 21 inches of ground clearance, ensuring you can conquer any terrain with ease.

What sets our teardrop trailer apart is its exceptional off-road capabilities. For enhanced performance, we offer an upgraded OGT® Evolution series suspension, providing an impressive 25 inches of ground clearance and 8 inches of wheel travel. Additionally, the all-metal construction ensures outstanding durability, making it a reliable companion for your adventures.

The trailer comes standard with the reliable Timbren 3500 HD axle-less independent suspension. However, for those seeking even more off-road prowess, the upgraded suspension features a trailing A-arm with a 2.25" Dirt Logic shock and coil spring, ensuring superior handling and comfort on rough terrains.

Step inside the trailer, and you'll discover a thoughtfully designed interior that prioritizes comfort during your off-road camping trips. It features a full RV Queen-sized bed and four over-foot cabinets, all constructed with lightweight and sturdy aluminum. The top right corner of the cabinets houses the electrical system display, and optional furnace display/thermostat. You can even opt for an LED Smart TV for entertainment. The cabin is R10 insulated, ensuring a cozy and comfortable environment. Plus, the optional efficient furnace will keep you warm during chilly nights.

EXPEDITION 3.0 SQUAREDROP CAMPER

Crafted with exceptional precision, the Expedition 3.0 boasts an all-metal construction built on a robust 4-inch c-channel frame. The exterior features aluminum sheeting with an R10 insulated foam core, ensuring durability and insulation. Its square drop shape is not only visually appealing but also optimized for off-road capability with a 50-degree departure angle.

For adventurers seeking enhanced off-road capabilities, the Expedition 3.0 offers an available upgraded OGT® Evolution series suspension. With an exceptional 25 inches of ground clearance and 8 inches of wheel travel, this suspension system ensures a smooth and controlled ride even on uneven surfaces. Combined with the all-metal construction, this trailer is built to withstand the toughest outdoor conditions.

Step inside the Expedition 3.0 and experience a world of comfort and convenience. The interior features a spacious full RV Queen-sized bed and four over-foot cabinets, all expertly crafted from lightweight and durable aluminum. The top right corner of the cabinets houses the electrical system display, while an optional furnace display and thermostat allow for customizable climate control. For entertainment, an optional LED Smart TV is available. The cabin is R10 insulated, providing a cozy and comfortable environment no matter the weather. Additionally, a roof-mounted MaxxFan helps regulate the temperature for maximum comfort during your adventures.

Prepare for the ultimate off-road adventure with the Expedition 3.0. Its unrivaled combination of comfort, ruggedness, and capability will take you on unforgettable journeys to remote and breathtaking locations. Experience the freedom and thrill of exploring the great outdoors with a trailer designed to go anywhere you dare to venture.

SWITCHBACK OVERLAND TRAILERS

Built with exceptional craftsmanship, the Switchback features an all-metal construction on a robust 4-inch c-channel frame. Its body consists of aluminum sheeting with an R10 insulated foam core, ensuring durability, longevity, and insulation. Designed as an adventure gear hauler with a rack for a roof-top tent, this trailer is your gateway to thrilling outdoor escapades.

Crafted from lightweight aluminum, the Switchback offers the perfect combination of strength and weight-saving design. Its all-metal construction ensures exceptional durability, promising a reliable companion throughout your adventurous journeys. Built to withstand the rigors of outdoor exploration, this trailer is ready to tackle any path you choose.

Ample storage space is a priority in the Switchback. The front storage cabinet offers an impressive 40 cubic feet of storage capacity, providing ample room for all your adventure gear. Optional tie-down points mounted to the floor allow you to secure your belongings during your travels. The integrated roof rack with cross bars is rated to carry up to 1000 lbs, enabling you to bring along larger equipment or gear for your outdoor pursuits.

With its rugged and captivating exterior, the Switchback becomes your ultimate tool for connecting with the outdoors. It embraces the spirit of adventure, offering the freedom to explore wherever your heart desires. From thrilling off-road journeys to peaceful and remote hideaways, this trailer is designed to traverse any landscape, enabling you to create unforgettable memories and embrace the wonders of nature.

Get ready to embark on extraordinary adventures with the Switchback. Its robust construction, innovative design, and unwavering capability will be your gateway to unparalleled exploration and unforgettable moments in the great outdoors. Unleash your adventurous spirit and let the Switchback guide you to new horizons!

SPROCKET MODULAR TRAILERS

Immerse yourself in the freedom of customization with the Sprocket—a trailer designed to adapt to your unique needs. Built with meticulous craftsmanship, the Sprocket features an all-metal construction on a sturdy 4-inch c-channel frame. Its body is constructed from aluminum sheeting with an R10 insulated foam core. This modular trailer allows you to start with a basic configuration and bolt on options and accessories either at the factory or post-purchase, creating a personalized camping experience like no other.

Elevate your off-road adventures with the available upgraded OGT® Evolution series suspension. Offering an impressive 25 inches of ground clearance and 8 inches of wheel travel, this suspension system ensures a smooth and controlled ride on even the most challenging terrains. The all-metal construction guarantees exceptional durability, promising a reliable companion throughout your journeys.

Step into the well-designed interior of the Sprocket, where comfort awaits. A full RV Queen-sized bed provides a cozy retreat for a restful night's sleep (mattress optional). Four over-foot pass-through cabinets, constructed from durable aluminum, offer ample storage space for your essentials. A roof-mounted MaxxFan helps regulate the temperature inside the cabin, ensuring optimal comfort. The cabin is R10 insulated, shielding you from the elements and maintaining a pleasant environment throughout your adventures.

With its modular design, the Sprocket is the epitome of versatility. It empowers you to create a trailer that perfectly suits your needs, allowing you to go anywhere your adventurous spirit desires. Embrace the freedom of customization and embark on unforgettable journeys tailored to your preferences. The Sprocket invites you to design your dream camping companion and unlock endless possibilities for exploration.
